GENERAL INFORMATION:
APPLICANT: Janice Au-Young
APPLICANT: Jeffrey J. Seilhamer
TITLE OF INVENTION: COMPOSITION FOR THE DETECTION OF SIGNALING
TITLE OF INVENTION: PATHWAY GENE EXPRESSION
NUMBER OF SEQUENCES: 1490
CORRESPONDENCE ADDRESS:
ADDRESSEE: INCYTE PHARMACEUTICALS, INC.
STREET: 3174 PORTER DRIVE
CITY: PALO ALTO
STATE: CALIFORNIA
COUNTRY: USA
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     Score 1144.4; DB 4; Length 1182; Pred. Patent NO. 6806054

GENERAL INFORMATION:
APPLICANT: Lehman-Bruinsma, Karin
APPLICANT: Liaw, Chen W.
TAPLICANT: Liaw, Chen W.
TITLE OF INVENTION: Protein-Coupled Receptors
TITLE OF INVENTION: NO. 6806054-Endogenous, Constitutively Activated Known;
TITLE OF INVENTION: Protein-Coupled Receptors
TITLE OF INVENTION: Protein-Coupled Receptors
FILE REPREBRENCE: ARRN-207
CURRENT APPLICATION NUMBER: 05/105, 747
PRIOR FILING DATE: 2001-04-05
PRIOR PRIOR PAPLICATION NUMBER: 09/170, 496
PRIOR FILING DATE: 1998-10-13
NUMBER OF SEQ ID NOS: 589
SOFTWARE: PatentIn Version 2.1
                                                                                                                                                                                                                                                                                                                                                                                                                            1 ATGGACTCCCCGATCCTCCGCGGGGAGCCGGGCCCTACCTGCGCCCCGAGCGCC

Patent No. 6518480

GENERAL INFORMATION:

APPLICANT: CONTAIN, Bruce R.

TITLE OF INVENTION: Selective Target Cell Activation By

TITLE OF INVENTION: Expression of A G Protein-Coupled Receptor Activated

TITLE OF INVENTION: Superiorly By Synthetic Ligand

TITLE OF INVENTION: Superiorly By Synthetic Ligand

TITLE OF INVENTION: 1999-12-20

CURRENT APPLICATION NUMBER: US/09/341,446B

PRIOR FILING DATE: 1997-03-25

PRIOR FILING DATE: 1996-03-26

PRIOR FILING DATE: 1996-03-26

NUMBER OF SEQ ID NOS: 12

SOFTWARE: FastSEQ for Windows Version 4.0

SEQ ID NO 7
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         352
